Competition Rules

1. Only natural specimen shall be admitted to the competition. No material formed by human intervention shall be accepted, in particular slag minerals (ref.: IMA NMNIN Procedures and Guidelines etc., 1998)
2. Specimens shall be micromounts, meaning small specimens mounted in a box not larger than 31x22x22 mm, to be appreciated microscopically.
3. Each box shall bear a label with clear indication of: mineral, association, and locality
4. The boxes shall include no name or other indication which can reveal the owner of the specimen.
5. Each participant can submit only one specimen
6. The specimens shall be accepted by the jury secretary, who shall verify compliance to the rules 1-4 above.
7. The secretary shall assign a progressive number to each specimen, and shall compile a list to relate them to their owners.
8. The jury shall examine all the specimens and shall select the specimens who win the various prizes.
9. The criteria that the jury shall apply to determine the winners are mainly the following:
 - Perfection, color and beauty of crystals
 - Absence of damage
 - Paragenesis
 - Quality of mounting and labeling.
10. The jury verdict their interpretation of the rules above is final.
